## Company Statement: Alcohol-Based Hand Sanitisers

In response to recent reports in the media relating to the use of improper ingredients in hand sanitisers, we would like to reassure all our distributors, customers, and end-users that none of our products contain methanol\*.

Kitchenmaster manufactures a range of hand sanitisers and disinfectants containing Ethanol. Our Ethanol is sourced exclusively from Government licensed suppliers to ensure high quality and that there is no methanol contamination.

To find out more about our extensive range of hand care and surface disinfectant products contact us on : [sales@kitchenmaster-ni.com](mailto:sales@kitchenmaster-ni.com)

Kind regards

Colin Stanley

Colin Stanley  
Managing Director

*\*Methanol content in alcohol-based hand sanitisers can cause dermatitis, eye irritation, upper respiratory system irritation and headaches after repeated or prolonged use.*
